

MOTOTRBO™ SL SERIES ACCESSORIES

COMMUNICATING HAS NEVER LOOKED BETTER. OR BEEN EASIER.

From the concierge desk to the convention centre, MOTOTRBO™ digital radio solutions keep you instantly connected and in control with an incredibly sleek and light digital radio for discreet communications. Our SL Series radios have professional business capabilities, like enhanced work order ticket management, vibrate alert, covert mode and large, full colour display, to empower people like never before.

SL Series accessories enhance your professionalism – with forward-thinking features like integrated Bluetooth® and Intelligent Audio – so you can remaster your productivity and image. That's why it's critical to choose the only accessories certified to perform best with MOTOTRBO radios.

Only Motorola Original Accessories are developed and tested with Motorola radios as a complete system to ensure optimal performance, reliability and regulatory compliance.

ENHANCE MOBILITY WITH INTEGRATED BLUETOOTH

Whether hotel staff are responding to guest requests or a security team is covering a special event, sharing information instantly, easily and seamlessly is critical to your business. So we embedded Bluetooth audio in our MOTOTRBO radios to make communications even more convenient. Our exclusive Operations Critical Wireless earpiece handles loud environments while an optional wireless push-to-talk (PTT) button links to any earpiece to enable more discreet communications. Just put the PTT in a pocket or on a lapel and connect instantly.

MOVE FROM HECTIC TO HUSHED

Our SL Series radios offer a smart feature—Intelligent Audio—that adjusts radio volume to fit the environment's noise level. Intelligent Audio also works with select audio accessories, giving your workforce even more communication flexibility.

Connect an SL Series accessory and the Intelligent Audio automatically adjusts radio volume and filters out background noise, drastically improving the level of audio clarity. Now your employees won't miss a call at a bustling banquet or disturb others when they move into a quiet hallway.

TALK COMFORTABLY AND COVERTLY

Our single-wire swivel earpiece and surveillance earpiece are small, sleek and powerful, so your employees can communicate easily wherever they walk and talk.

The transparent coiled cord and rubber earbud on the surveillance earpiece offers greater discreetness for security personnel. The flexible-fitting swivel earpiece is comfortable, even for extended shifts. Both earpieces have an in-line microphone and push-to-talk, making communication easier and unobtrusive.

Add compact carrying accessories – like a swivel carry holder or a lightweight wrist strap – and you’ve got flexibility and comfort that meets the needs of the busiest people on your team.

BLUETOOTH WIRELESS ACCESSORIES

GMTN6356*	Operations Critical Wireless Earpiece with 12" cable and charger

THIN IS IN - FROM BATTERIES TO CHARGERS

From the standard cell phone-sized batteries to the micro-USB charger, we designed our SL Series accessories with portability, professionalism and convenience as our top priorities. Both the standard and high-capacity batteries are so slim and lightweight that it's easy to carry spares.

Our unique multi-unit charger merges high power with high image, allowing you to charge six radios or batteries simultaneously. This charger is both functional and sleek in design.
